## IT CONSULTING SERVICES

### PlanetMagpie—A Trusted IT Partner for Your Microsoft-Centric Business

PlanetMagpie's IT Consulting Team gives your workforce the best-in-class communication and storage solutions it needs to compete in today's market. We work on all aspects of corporate networks, whether located on-premise or in the cloud. With annual skill certification and the expertise gained from working in a wide variety of IT environments each week, PlanetMagpie IT Consultants ensure your project's success.

#### Benefits of Partnering with PlanetMagpie

**Microsoft Experts.** We've maintained Microsoft Gold Partner status for over 12 years, and our engineers have been certified in over 13 Microsoft solutions. Among the thousands of Microsoft Partners, only 1% achieve Gold Partner status. Our Gold Partner status gives us access to the highest-level Microsoft resources.

**Datacenter Experts.** PlanetMagpie has run an enterprise-grade private datacenter since 1998. The experience we've gained means we can troubleshoot your on-premise and cloud hosting issues better than anyone else. We know datacenter operations & security issues inside and out.

**A Strong Foundation.** Our founder was around when the AS400 was popular technology. Now we work with Voice over IP, public and private cloud servers, network service gateways, virtual servers, and solid state disk arrays. With experience dating back 25 years, we can handle anything—because we know the building blocks that got us here.

**American IT.** We invest in the U.S. workforce for the betterment of our local communities and the good ol' US of A. PlanetMagpie does not offshore any of its IT Consulting work.

#### PlanetMagpie - Your Cybersecurity is Our Top Priority

When companies invest in Microsoft Solutions, they want to protect their investment with the toughest security solutions available.

Our Cybersecurity Team is certified in network equipment brands like Extreme, Juniper, and F5. With the most trusted solutions on the market, we can protect your data from both internal and external network threats.

PlanetMagpie is located in the San Francisco Bay Area and Dallas/Fort Worth, and serves businesses across the United States.
